Projects

E-Learning App - view
Tech Stack: ReactJs, React-Bootstrap, Supabase, React Query

- Built a responsive web app to help students' access learning materials, take quizzes, and calculate their CGPA.
- Implemented authentication and CRUD operations using Supabase.
- Used React Query for efficient data fetching and caching.

Ecommerce Website (Frontend Mentor Challenge) - view
Tech Stack: React, React-Bootstrap, Sass, ContextAPI

- Developed a responsive e-commerce website featuring interactive image galleries, cart functionality, and a mobile first layout.
- Used ContextAPI for state management.

Sushi Food - [view](#)

Tech Stack: HTML, Bootstrap, Sass, Javascript

- Built a responsive, mobile first website for a fictional sushi restaurant featuring cart functionality and a search bar.

- Implemented cart functionality, and live search using vanilla JavaScript for enhanced interactivity.

- Used Sass and Bootstrap to structure clean, scalable styles and maintain design consistency across screen sizes.
